Rise of the Khmer Dragon

- Strategic partnerships and expansion plans coming online NagaCorp's (Naga) strategic partnerships with Bassaka Air and China International Travel Services (CITS), coupled with the opening of NagaCity Walk in 1H16, could be a boon for Chinese tourist visitation. In addition, the opening of Naga2, due in mid-2017, will double Naga's existing capacity and increase its offerings.
- Proven dividend yield play Since 2010, Naga has maintained its dividend payout ratio at c70%, and we believe it will be able to maintain its payout ratio over our forecast horizon even with its new expansion projects. We expect Naga to continue to generate healthy dividend yield (6.7% in 2015E) and positive free cash flow yield (10% in 2015E).
- No longer a single country story with exposure to Russia
 Naga plans to invest (up to USD350m) and develop new integrated resorts in the Integrated Entertainment Zone (IEZ) in Primorsy Krai, Vladivostok, Russia. Currently, Russia has awarded two gaming licenses: one to Naga and another to Summit Ascent. We estimate Naga Russia to be worth about HKD1.22 per share. While we are optimistic about the prospects of gaming in Vladivostok and about Naga's intention to expand into new gaming jurisdictions, we have excluded Naga's investment in Vladivostok from our earnings model as we expect no meaningful earnings contribution until after 2020.
- Initiate at BUY with a SOTP-based target price of HKD7.00
 We initiate at BUY with a TP of HKD7.00, using 8.5x EV/EBITDA to value both NagaWorld on 2015E and Naga2 on 2018E a discount to Macau peers given Naga's relatively small scale and country risk associated with Cambodia.

Highest dividend yield among peers we cover in 2015E

Investment thesis

We initiate on NagaCorp (Naga) with a BUY and a SOTP-based target price of HKD7.00 (18.4% upside potential).

Naga could benefit from: 1) its gaming monopoly in Phonm Penh until 2035; and 2) the low effective gaming tax regime in Cambodia, at 2% annually through 2018.

Naga's strategic partnerships with Bassaka Air and CITS will be critical for continued growth in Chinese tourist visitation to Phomn Penh, in our view. In addition, the scheduled opening of Naga2 in mid-2017 will double Naga's operational capacity and should capture increased demand from inbound tourism.

Having maintained its dividend payout ratio at c70% since 2010, we believe Naga will keep its payouts healthy as its new expansion projects are funded by CEO Tan Sri Chen Lip Keong. We expect Naga's dividend yield (6.7% in 2015E) and positive free cash flow yield (10% in 2015E) to be the highest of Asian gaming operators based on our own and Bloomberg consensus forecasts (Exhibit 3).

Catalyst

Potential catalysts for Naga include: 1) launch of direct flights from under-penetrated provinces in China; 2) new junkets signing up with Naga; and 3) announcements of new/renewal of EGM operation agreements

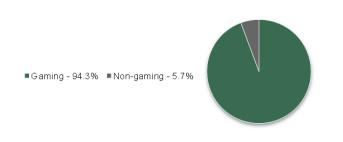

Risk to our call

Key downside risks include: 1) equity placement and CEO ownership overhang; 2) regional competition from Vietnam and/or Thailand; 3) regulatory risk (loss of license); and 4) a reduction in the dividend payout ratio.

Company background

NagaCorp operates hotel, gaming and leisure business in Cambodia. Its flagship, NagaWorld is the only intergrated resort in Phnom Penh (capital city of Cambodia) with a 70-year casino licence till 2065 and 41-year monopoly expiring in 2035. NagaWorld had reported EBITDA margin of 43% in 2014 and held 169 gaming tables and 1,537 gaming machines as at the end of 2014. The company has scheduled to open NagaCity Walk and the TSCLK complex in 1Q16 and 2017 respectively.

Earnings sensitivity

		Sensitiv	Sensitivity on VIP		on mass
(USD m)	Base case	Bull	Bear	Bull	Bear
Gross revenue (2015E)	501	511	492	511	492
Change (y-y %)	24	26	22	4	-4
VIP revenue	217	226	207	217	217
Change (y-y %)	15	20	10	0	0
Mass revenue	259	259	259	269	250
Change (y-y %)	34	0	0	39	29
EBITDA (2015E)	213	216	211	223	204
Change (y-y %)	21	23	20	27	16
Chg from base case (%)		1	(1)	4	(4)
EBITDA margin (%)	42.6	42.3	42.8	43.6	41.5

Sources: NagaCorp Ltd; BNP Paribas estimates

- Our sensitivity analysis suggests a 5% change in mass revenue would lead to a 4% change in EBITDA in 2015, all else being equal, whereas a 5% change in VIP revenue would impact its EBITDA by 1%.
- Naga's earning is not sensitive to VIP demand, as the segment accounts for 47% of its revenue. We expect the mass segment to be the main revenue contributor.

Executive summary: Initiate at BUY with TP of HKD7.00

Strategic partnerships and expansion plans coming online

Naga's strategic partnerships with Bassaka Air (not listed) and CITS (601888 CH) will be critical for continued growth in Chinese tourist visitation to Phomn Penh, in our view. Bassaka Air, Naga's affiliated airline, will collaborate with CITS to start new air routes (beginning 2H15) between Phonm Penh and second-tier Chinese cities. NagaCity Walk, due to start operations in 1Q16, will house Phnom Penh's first luxury retail mall where the main lessee is CITS-owned China Duty Free. We believe these partnerships could be a boon for Chinese tourist visitation.

In addition, Naga2 is scheduled to open in mid-2017, which will double Naga's existing capacity and increase its offerings. This will allow Naga to offer full integrated resort facilities (first of its kind in Cambodia) to capture the potential increase in tourist visitation.

Proven dividend yield play

Naga will generate the highest FCF among gaming operators in Macau and Cambodia with c10% FCF yield in 2015, based on our own and Bloomberg consensus estimates. Also, Naga ranks first of all gaming companies with c6.7% dividend yield in 2015E. Since 2010, Naga has maintained its dividend payout ratio at c70%. We believe Naga will be able to maintain its dividend payout ratio over our forecast horizon as its projects under development, NagaCity Walk and Naga2, are financed by the previously agreed equity arrangement with its CEO Tan Sri Chen Lip Keong. We are modelling 6.7%/7.3% dividend yields (at current prices) and 10.2%/11.2% free cash flow yields for 2015/2016. (See Exhibits 1 to 3.)

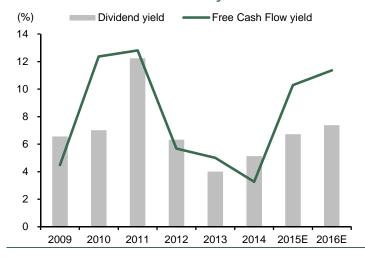

No longer a single country story - Naga Russia due to start in 2018

Naga has agreed to invest USD350m and develop new integrated resorts in a 21.6-hectare land in the Integrated Entertainment Zone (IEZ) in Primorsy Krai, Vladivostok, Russia. Currently, Russia has awarded two gaming licenses: one to Naga and another to Summit Ascent (102 HK). We estimate Naga Russia to be worth about HKD1.22 per share. While we are optimistic about the prospects for gaming in Vladivostok and about Naga's intention to expand into new gaming jurisdictions, we have excluded Naga's new investment in Vladivostok from our earnings model as we expect no meaningful earnings contribution until after 2020.

Quasi gaming monopoly and low gaming tax

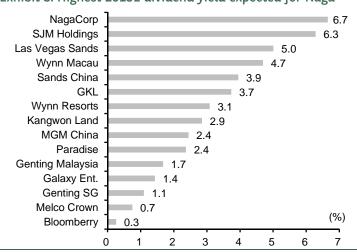

Armed with a 70-year casino licence until 2065 and a 40-year casino monopoly within a 200-km radius of Phnom Penh until 2035, NagaCorp operates NagaWorld, an integrated gaming resort in Phnom Penh. Cambodia's gaming tax includes a system of fixed payments named "Obligatory payments" (cUSD 325k per month/ USD3.9m per annum), which is determined by the location and size of operations of the operating casino. We estimate effective gaming tax is c2% of gross gaming revenues, making it the lowest gaming tax regime in Asia. We believe Naga could benefit from: 1) its gaming monopoly in Phonm Penh through 2035; and 2) the low effective gaming tax regime in Cambodia, at c2% annually, through 2018. (See Exhibit 4 for a tax comparison with other gaming jurisdictions.)

Tourism growth in Cambodia

Cambodia has been experiencing an unprecedented proliferation in tourism, underpinned by an improving infrastructure. Total tourist arrival increased from c900k visitors in 2004 to c4.5m visitors in 2014, implying 14% CAGR (see Exhibit 5). In 2014, Cambodia received the most visitors from Vietnam (c20% of total visitors), China (c12%), Laos (c10%) and Korea (c9%).

Cambodia continues to grow as a major tourist attraction, and its Ministry of Tourism forecasts international tourist arrivals will increase at c29% CAGR to 7.5m over 2014-20. Tourist arrivals from Vietnam (34% CAGR over 2004-14) was driven by improvement in key infrastructure such as increased road works and new bridges. Another key driver has been tourist arrivals by air. International tourist arrivals via the Phnom Penh airport increased from 317k in 2004 to 918k in 2014, implying 10% CAGR. In 2013 and 2014, c10 new air routes from China have boosted tourist arrivals from the country. In 2014, Cambodia's total number of visitors grew 7% and Chinese visitors grew 21%.

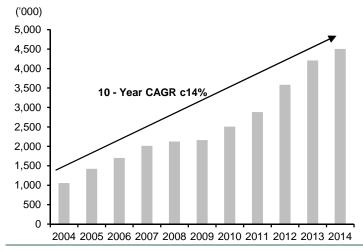

The government plans to improve Cambodia's airport infrastructure to cope with the expected growth in visitors by increasing handling capacity at the Phnom Penh and Siem Reap airports. Naga has invested USD15m-20m on the Naga Terminal at the Phnom Penh airport to service VIP patrons. Airport infrastructure improvements are due to be completed the end of 2016.

Strategic partnership with CITS and Bassaka Air to drive Chinese tourism

Naga purchased two commercial aircraft in 2014, which were leased to its affiliated airline, Bassaka Air. On 3 October 2014, Bassaka Air, began operations and started regular domestic flights between Phnom Penh and Siem Reap. In May 2015, Bassaka Air began flying twice weekly between Macau and Phnom Penh. We believe the new Macau flight schedule could be crucial in ramping up junket trips originating from Macau (e.g. Macau junkets can offer VIP players visiting Macau on transit visas and a trip to Cambodia as a package).

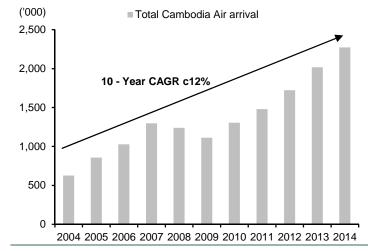

In conjunction, Naga has committed to offer low-cost accommodation travel packages to CITS, one of the largest state-owned travel agencies in China. In addition, Bassaka Air will work with CITS to start new air routes between Phonm Penh and second-tier Chinese cities, which are scheduled to begin in 2H15.

Expansion plans

NagaCity Walk and Naga2

NagaCity Walk, a walkway linking NagaWorld to Naga2, will house Phnom Penh's first luxury retail mall with a minimum leasable area of c2,000 sqm. Naga has received commitments from its construction partners for NagaCity Walk to be ready by September 2015. Thereafter, the leased area will be taken over by the main lessee, CITS-owned China Duty Free, for fit out and is due to be ready for operation in 1Q16.

Source: Company presentation

One plus one equals two. Naga's latest property, Naga2, also known as Tan Sri Chen Lip Keong (TSCLK) complex, is scheduled to open in mid-2017. The opening of Naga2 will double Naga's existing capacity and bring about additional offerings (see Exhibit 12). This will allow Naga to offer full integrated resort facilities (first of its kind in Cambodia) and capture visitation growth in the long run.

We estimate Naga2 will generate gross gaming revenue (GGR) of USD170m in 2017, its first full year of operation (NagaWorld's 2014 GGR was USD381m), and EBITDA of USD46m in the same year (NagaWorld's 2014 EBITDA was USD176m).

Source: Company presentation

Naga to remain debt-free while completing NagaCity Walk and Naga2. In an agreement concluded in 2011, Naga intends to acquire both NagaCity Walk and Naga2 from CEO Tan Sri Dr Chen Lip Keong on completion. Naga has proposed to issue 399m shares and 1,167m shares to Dr. Chen at HKD1.8776 per share for both NagaCity Walk and Naga2.

No longer a single country play

Apart from its operations and expansion in Phnom Penh, Cambodia, Naga has agreed to invest USD350m and develop new integrated resorts in a 21.6-hectare land in the Integrated Entertainment Zone (IEZ) in Primorsy Krai, Vladivostok, Russia. The IEZ is one of five regions which Russia has authorized for gaming development. Currently, Russia has awarded two gaming licenses: one to Naga and the other to Hong Kong-listed Summit Ascent. Naga's investment plans for phase 1 (USD200m) include 100 gaming tables, 500 electronic gaming machines (EGMs), 346 hotel suites, 9 food and beverage and entertainment outlets, among many other amenities.

To value Naga's Russian investment, we apply a target EV/EBITDA multiple of 10x (consistent with BNPP's valuation method of Summit Ascent) to our estimate of the new property's 2020E EBITDA. From our back-of-the-envelope calculations, we estimate Naga Russia to be worth about HKD1.22 per share (see Exhibit 13).

While we are optimistic about the prospects of gaming in Vladivostok and Naga's intention to expand into new gaming jurisdictions, we have excluded Naga's new investment in Vladivostok from our earnings model as we expect no meaningful earnings contribution until after 2020.

[^]EGM number includes planned additional 200 EGM for the VIP rooftop area in 2015 and 48 EGM in Saigon Palace in 2H2015

^{**}Retail space in Naga2 is the minimum lettable retail space in NagaCity Walk

Earnings growth assumptions

VIP - starting from a low base

Since Naga began its VIP incentive program in 1Q13, it has managed to increase its quarterly VIP rolling volume at 9% CAGR q-q through 1Q15. The junkets that have driven this growth include four Malaysian junkets, a few local junkets and a Chinese junket Asian Nations (since Aug 2014). Historically, Naga has targeted the low-end of the VIP sector where a player's check amount ranges from USD10k to USD15k. This is evident in Naga having the lowest win per unit per day against its peers in the region (see Exhibit 14).

We see growth potential for Naga's VIP segment and estimate its VIP rolling chip volume will grow at 23% in 2015 and 12% in 2016, with VIP gross profit growing at 4% and 12% for the two years (significantly lower gross profit margins are due to VIP incentive plans), based on the following factors:

Macau-based junkets sign ups. In April, Suncity (not listed), Macau's top junket, agreed to operate in NagaWorld on a casual junket agreement (vs. fixed room agreement where the junket would deliver a fixed amount of rolling per table on a monthly basis). In June, Jimei (not listed), Century Group (not listed) and Lucky Star (not listed) agreed to operate on a fixed junket agreement with NagaWorld, taking over an area on the first floor (previously known as Aristocrat room).

Competitive revenue-sharing schemes for junkets. Due to high gaming taxes in Macau, gaming operators generally offer junket operators c45% in revenue-share schemes. In comparison, revenue-share schemes for junkets in Cambodia could reach up to c70%. However, this could signal increased VIP incentives for Naga as rolling commissions previously ranged from 1.1% to 1.35% (70% revenue share implies c2% rolling commissions).

Additional VIP-oriented facilities. In 2H15, Naga plans to open 16 more VIP tables along with a rooftop pool deck. In addition, Naga's VIP terminal could start operations at Phnom Penh International Airport from 1Q16, which supplements Bassaka Air's direct flights from Macau (started May) and possible direct flights from the previously unpenetrated provinces of China in 2H15.

Mass/EGM: riding on inbound tourism growth

Naga's mass segment includes public floor gaming tables and electronic gaming machines (EGMs). Public floor gaming tables, where minimum bets could go as low as USD30, are only open to those with a foreign passport while EGMs are accessible to all (includes locals). We believe Naga's growth in the mass segment is driven by tourist visitation and increased expenditure by mass-market players, supported by economic growth in Indochina. We see growth potential for Naga's mass segment, and estimate mass gaming revenue will grow 10% in 2015 and 12% in 2016 and EGM revenue will grow 8% in 2015 and 9% in 2016, based on the following factors:

Process and technology upgrades. Prior to June, as a precautionary measure against counterfeit bills, Naga's patrons could only buy casino chips at the cage (e.g. unlike Macau, Vegas or Singapore where chips buy-in are done at the gaming tables). Naga has since improved this process and installed new bill validation machines on each gaming table to speed up the chips buy-in process, which we believe could allow for increased wins from increased wager volume (increased time factor). Likewise, in the EGM segment, Naga plans to install TITO (Ticket-In Ticket Out) systems on its EGMs, which we believe could bring about increased handle (increased time factor) and result in increased EGM wins.

NagaCity Walk. We believe the opening of NagaCity Walk should be an overall positive for Naga given: 1) Naga's strategic tie-up with CITS's China Duty Free could be a boon for tourist visitation and overnight traffic; 2) reinstatement of traffic flow to NagaWorld's main entrance, which was disrupted during the construction of NagaCity Walk; and 3) new retail offerings could be a strategic driver of tourist volume to NagaWorld.

Strategic partnerships with CITS and Bassaka Air. We believe both these partnerships augment each other in promoting tourism in Cambodia. Bassaka Air in collaboration with CITS could open new air routes and the previously unpenetrated markets within China as early as 2H15. In addition, CITS could increase overnight stay for its packages within Phnom Penh (currently c1.5 nights for a 6-day package) based on: 1) discounted rates commitment from Naga; 2) increased offerings from the opening of NagaCity Walk; and 3) China Duty Free is owned by CITS (higher incentive to drive its success).

Renewal of slot machines. On 28 May 2015, Naga entered into an EGM operations agreement with four independent third parties to renew 300 of its EGMs. We believe that replacing these old machines (more than 6 years old) with new concepts and offerings in the EGM segment could improve win per unit per day.

Impending renewal of c790 EGMs in 2016. Naga's existing EGM operations agreements with Zhiyou (not listed) and Entertainment Gaming Asia (EGT US, formerly known as Elixir Gaming Technology) will expire in 2016. This could bring

about renewal for c790 EGMs (EGT: 640, Zhiyou: 150). Based on the latest EGM operations agreement signed on 28 May 2015, we believe Naga could receive fees of cUSD85m or even higher (one-off) from the renewal of the c790 EGMs.

Compared to consensus

Our 2016E net profit is c23% above consensus as we believe Naga will receive oneoff fees of up to cUSD85m on renewal of existing EGM operations agreement.

Our 2017E net profit is 2% below consensus as we assume Naga2 will be opened at end-June 2017 and the ramp-up to be slightly slower than the market seems to expect.

Valuation: 12m SOTP-based TP of HKD7.00 implies 18% upside

We value Naga by applying 8.5x, a c40% discount to its Macau peers given Naga's relatively small scale and country risk associated with Cambodia. We are conservative in our valuation as Macau has been a de-rating story, although we recognise Naga has been able to buck the trend and has a growth story behind it. In addition, Naga has consistently delivered on its initiatives, which could allow it to grow ahead of its peer group.

We derive our target price by applying a target EV/EBITDA multiple to our EBITDA for casts for 2015E EBITDA for NagaWorld and 2018E EBITDA for Naga2. Our EV is discounted back to end-2015 based on a WACC of 12.7%. While Naga is listed on the HK exchange and its cost of capital is relatively low (Bloomberg estimates it at 4.6%), we believe the business risk for Naga lies in Cambodia where political/country risk is considerably higher. As such, we apply a WACC of 12.7% to our estimates. We apply a fully dilutive impact from the share issuance (2,282m issued shares, 3,848m total shares) related to both new retail (NagaWalk) and casino/hotel (Naga2) projects. We have excluded Naga's Russian investment as we expect no meaningful earnings contribution until after 2020.

We have cross-checked our SOTP valuation with a DCF analysis (Exhibit 22), which also generates a value of HKD7.00 per share.

Risks to our call

Reduction in the dividend payout ratio. Since 2010, Naga has been delivering attractive dividend yields by maintaining its dividend payout ratio at c70%. Any business slowdown or management's intention to retain cash could result in a reduction in the dividend payout ratio, which could have a significant negative impact on the share price.

Regional competition from Vietnam and/or Thailand. Regulatory approvals for large-scale gaming developments at Vietnam and/or Thailand targeting foreign tourists could create increased competition. Impact of competition from new casinos in Vietnam is currently limited as locals are not allowed to enter casinos. Note that, the opening of The Grand at Ho Tram, Vietnam on 27 July 2013, had no impact on Naga's operations (GGR grew 17% y-y in 2014). However, all of this could change if Vietnam allows locals to visit the casinos (e.g, implementing similar controls as those seen in Singapore).

Regulatory risk (loss of license and increase in gaming tax). Naga has an exclusive gaming license within a 200km radius of Phnom Penh until 2035 and a casino license until 2065. Naga's "Obligation payments" (subject to a 12.5% rise pa) in place of a gaming tax with the Cambodian government expires in 2018.

Equity placement and CEO ownership overhang. We believe there is risk of equity dilution for Naga with regards to fund raising through equity means and sale of shares by **CEO** Tan Sri Chen Lip Keong. On completion of NagaCity Walk and Naga2, Dr. Chen will receive 399m and 1,167m shares at an agreed price of HKD1.8376 per share, which could return his stake to c70%. We cannot rule out the possibility of Dr. Chen selling the additional shares in order to improve free float and maintain holdings below 50%.

Exhibit 25: Historical equity fund raising by NagaCorp and CEO equity sales

Company background

History of Naga

NagaCorp operates hotels, gaming and leisure businesses in Cambodia. Its flagship, NagaWorld, is the only integrated resort in Phnom Penh (capital city of Cambodia) with a 70-year casino licence through 2065 and a 41-year monopoly expiring in 2035. Located in a 200-km radius of Phnom Penh, NagaWorld reported EBITDA margin of 43% in 2014 and held 169 gaming tables and 1,537 gaming machines as at the end of 2014. The company has remained unleveraged since its listing in the Hong Kong exchange in October 2006. NagaCorp was transferred the gaming licence by Tan Sri Dr Chen in 1995 and commenced its casino operations on a barge anchored to the Bassac River on May 1995.

NagaWorld had its full opening in December 2007. NagaCorp acquired Naga2 from Tan Sri Dri Chen in January 2012 with consideration of convertible bonds or shares to be settled upon the completion of Naga2. The company has scheduled to open NagaCity Walk and the TSCLK complex in 1Q16 and 2017.

Exhibit 26: NagaCorp: Key corporate events

Date	
1994	Tan Sri Dr Chen (CEO) successfully bid the development of the island casino resort project
Jan 95	Tan Sri Dr Chen (CEO) was granted a casino license with term of 70 years
May 95	NagaWorld received the casino licence from Tan Sri Dri Chen and commenced its gaming operations on a barge anchored to the Bassac River
Aug 00	NagaCorp leased an area of about 14,160sqm from the Cambodian Government for the construction of NagaWorld
Oct 06	NagaCorp was listed in Hong Kong, which raised HK\$822m from the IPO of 575 million shares at HK\$1.43 each
Jan 07	The phase one of NagaWorld was opened with 60 hotel rooms and 40 gaming tables
Dec 07	NagaWorld was fully opened with 508 hotel rooms and 176 gaming tables
Jun 11	Proposed acquisition of Naga2, comprising NagaCity Walk, Tourist Garden and the TSCLK complex from Tan Sri Dr Chen (CEO)
Jan 12	The proposal to acquire Naga2 was approved by voting
Nov 12	The construction of Naga2 started
Mar 13	NagaCorp placed 200 million new shares at HK\$6.05 and raised HK\$1.2b
3Q15	The NagaCity Walk to be completed
1Q16	The NagaCity Walk to commence operation
Late 2016	The TSCLK complex to be completed
2017	The TSCLK complex to commence operation

 - 2) Stock options of the Company whose securities dealings are being solicited.
 - 3) Individual stock future, stock option, and warrants that use the stocks specified in Item 1) as underlying.

GENERAL DISCLAIMER

This report was produced by BNP Paribas Securities (Asia) Ltd , member company(ies) of the BNP Paribas Group.

This report is for the use of intended recipients only and may not be reproduced (in whole or in part) or delivered or transmitted to any other person without our prior written consent. By accepting this report, the recipient agrees to be bound by the terms and limitations set forth herein.

This report does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Customers are advised to use the information contained herein as just one of many inputs and considerations prior to engaging in any trading activity. This report does not constitute a prospectus or other offering document or an offer or solicitation to buy or sell any securities or other investments. This report is not intended to provide the sole basis of any evaluation of the subject securities and companies mentioned in this report.

Information and opinions contained in this report are published for reference of the recipients and are not to be relied upon as authoritative or without the recipient's own independent verification, or taken in substitution for the exercise of judgment by the recipient. Additionally, the products mentioned in this report may not be available for sale in certain jurisdictions.

As an investment bank with a wide range of activities, BNP Paribas may face conflicts of interest, which are resolved under applicable legal provisions and internal guidelines. You should be aware, however, that BNP Paribas may engage in transactions in a manner inconsistent with the views expressed in this document, either for its own account or for the account of its clients.

Australia: This report is being distributed in Australia by BNP Paribas Sydney Branch, registered in Australia as ABN 23 000 000 117 at 60 Castlereagh Street Sydney NSW 2000. BNP Paribas Sydney Branch is licensed under the Banking Act 1959 and the holder of Australian Financial Services Licence no. 238043 and therefore subject to regulation by the Australian Securities & Investments Commission in relation to delivery of financial services. By accepting this document you agree to be bound by the foregoing limitations, and acknowledge that information and opinions in this document relate to financial products or financial services which are delivered solely to wholesale clients (in terms of the Corporations Act 2001, sections 761G and 761GA; Corporations Regulations 2001, division 2, reg. 7.1.18 & 7.1.19) and/or professional investors (as defined in section 9 of the Corporations Act 2001).

Canada: The information contained herein is not, and under no circumstances is to be construed as, a prospectus, an advertisement, a public offering, an offer to sell securities described herein, or solicitation of an offer to buy securities described herein, in Canada or any province or territory thereof. Any offer or sale of the securities described herein in Canada will be made only under an exemption from the requirements to file a prospectus with the relevant Canadian securities regulators and only by a dealer properly registered under applicable securities laws or, alternatively, pursuant to an exemption from the dealer registration requirement in the relevant province or territory of Canada in which such offer or sale is made. The information contained herein is under no circumstances to be construed as investment advice in any province or territory of Canada and is not tailored to the needs of the recipient. To the extent that the information contained herein references securities of an issuer incorporated, formed or created under the laws of Canada or a province or territory of Canada, any trades in such securities must be conducted through a dealer registered in Canada. No securities commission or similar regulatory authority in Canada has reviewed or in any way passed judgment upon these materials, the information contained herein or the merits of the securities described herein, and any representation to the contrary is an offence.

Hong Kong: This report is prepared for professional investors and is being distributed in Hong Kong by BNP Paribas Securities (Asia) Limited to persons whose business involves the acquisition, disposal or holding of securities, whether as principal or agent. BNP Paribas Securities (Asia) Limited, a subsidiary of BNP Paribas, is regulated by the Securities and Futures Commission for the conduct of dealing in securities, advising on securities, providing automated trading services, dealing in futures contacts and advising on corporate finance. If any third party chooses to use the content of this material as reference, he/she accepts and approves to do so entirely at his/her own risk.

United States: This report may be distributed in the United States only to U.S. Persons who are "major U.S. institutional investors" (as such term is defined in Rule 15a-6 under the Securities Exchange Act of 1934, as amended) and is not intended for the use of any person or entity that is not a "major U.S. institutional investor". U.S persons who wish to effect transactions in securities discussed herein must do so through BNP Paribas Securities Corp., a US-registered broker dealer and member of FINRA, SIPC, NFA, NYSE and other principal exchanges.

Certain countries within the European Economic Area: This document may only be distributed in the United Kingdom to eligible counterparties and professional clients and is not intended for, and should not be circulated to, retail clients (as such terms are defined in the Markets in Financial Instruments Directive 2004/39/EC ("MiFID")). This document will have been approved for publication and distribution in the United Kingdom by BNP Paribas London Branch, a branch of BNP Paribas SA whose head office is in Paris, France. BNP Paribas SA is incorporated in France with limited liability with its registered office at 16 boulevard des Italiens, 75009 Paris. BNP Paribas London Branch (registered office: 10 Harewood Avenue, London NW1 6AA; tel: [44 20] 7595 2000; fax: [44 20] 7595 2555) is lead supervised by the European Central Bank (ECB) and the Autorité de Contrôle Prudentiel et de Résolution (ACPR). BNP Paribas London Branch is authorised by the ACPR and the Prudential Regulation Authority (PRA) and subject to limited regulation by the Financial Conduct Authority and PRA. Details about the extent of our authorisation and regulation by the PRA, and regulation by the Financial Conduct Authority are available from us on request. This report has been approved for publication in France by BNP Paribas, a credit institution licensed as an investment services provider by the ACPR whose head office is 16, Boulevard des Italiens 75009 Paris, France. This report is being distributed in Germany either by BNP Paribas London Branch or by BNP Paribas Niederlassung Frankfurt am Main, regulated by the Bundesanstalt für Finanzdienstleistungsaufsicht (BaFin).

Other Jurisdictions: The distribution of this report in other jurisdictions or to residents of other jurisdictions may also be restricted by law, and persons into whose possession this report comes should inform themselves about, and observe, any such restrictions. By accepting this report you agree to be bound by the foregoing instructions. This report is not directed to, or intended for distribution to or use by, any person or entity that is a citizen or resident of or located in any locality, state, country, or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation.

All research reports are disseminated and available to all clients simultaneously through our internal client websites. For all research available on a particular stock, please contact the relevant BNP Paribas research team or the author(s) of this report.

Additional Disclosures

Target price history, stock price charts, valuation and risk details, and equity rating histories applicable to each company rated in this report is available in our most recently published reports available on our website: http://eqresearch.bnpparibas.com, or you can contact the analyst named on the front of this note or your BNP Paribas representative.

All share prices are as at market close on 25 June 2015 unless otherwise stated

RECOMMENDATION STRUCTURE

Stock Ratings

Stock ratings are based on absolute upside or downside, which we define as (target price* - current price) / current price.

BUY (B). The upside is 10% or more.

HOLD (H). The upside or downside is less than 10%.

REDUCE (R). The downside is 10% or more.

Unless otherwise specified, these recommendations are set with a 12-month horizon. Thus, it is possible that future price volatility may cause a temporary mismatch between upside/downside for a stock based on market price and the formal recommendation.

* In most cases, the target price will equal the analyst's assessment of the current fair value of the stock. However, if the analyst doesn't think the market will reassess the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from fair value. In most cases, therefore, our recommendation is an assessment of the mismatch between current market price and our assessment of current fair value.

Industry Recommendations

Improving (♠): The analyst expects the fundamental conditions of the sector to be positive over the next 12 months.

Stable (previously known as Neutral) (←→): The analyst expects the fundamental conditions of the sector to be maintained over the next 12 months.

Deteriorating (ψ): The analyst expects the fundamental conditions of the sector to be negative over the next 12 months.

Country (Strategy) Recommendations

Overweight (0). Over the next 12 months, the analyst expects the market to score positively on two or more of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Neutral (N). Over the next 12 months, the analyst expects the market to score positively on one of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.

Underweight (U). Over the next 12 months, the analyst does not expect the market to score positively on any of the criteria used to determine market recommendations: index returns relative to the regional benchmark, index sharpe ratio relative to the regional benchmark and index returns relative to the market cost of equity.
